Diploma In Music Technology & DJ

Course Info

Our newly launched diploma will shift our focus to covering all aspects of music production in both Ableton & Logic, Hardware & Software Synthesis, Mixing & Mastering, Audio Processing, Masterclass Demonstrations & DJing in a club environment.

The course is aimed at both professionals & hobbyists looking to further their skills at an affordable price.

Course length: 5 Months (September to January) or (January to May)

Educational Requirements

No educational requirements need to be met, the programme is designed for all ages & skill levels. However, we do require genuine interest in the industry in entering or upskilling within the industry.

General Course Requirements

- A proven interest in audio and/or music technology, and to display some interest in related creative media arts
- Basic knowledge of computers (Mac/PC, and audio software): helpful but not essential
- For those who wish to attend Music Tech online, a PC or Mac with appropriate software is essential.
- Zoom app and access to broadband

Admissions

This is a limited space course – High quality content can only be delivered to appropriately sized groups. Applications are handled directly with admissions on a first come first served basis. Upon receiving your application, the team will discuss options in securing your place.

Delivery

Course delivery is blended & is built to suit those who are already working or are in fulltime education. Our focus is online delivery in the virtual classroom/cloud space with exception to the hands-on aspect of our DJ Course & Hardware workshops which is delivered in a club environment.

Course takes place during weekday evenings – Tuesday and or Thursdays

Weekend sessions are on Saturdays

Content

Ableton (Introduction & Advanced) – 6 Weeks

Audio Processing – Logic – 2 Weeks

Production Masterclass (Ableton & Logic) – 4 Weeks

Mixing & Mastering – 4 Weeks

DJ Course – 4 Weeks
